Objective

Front-End Developer passionate about technology and innovation, with a focus on creating creative, responsive, and functional interfaces. Since starting my journey in programming, I have been dedicating myself daily to studying and practicing, developing projects that apply and enhance my skills in HTML, CSS, JavaScript, and frameworks like React. Recently, I have expanded my knowledge to include Next.js and Node.js, aiming to become a Full-Stack Developer in the near future.

I am seeking my first opportunity in the field to contribute to innovative projects, combining attractive and accessible design with robust functionality. I am a quick learner, communicative, and dedicated, always striving to add value to the team while improving my technical skills. My commitment is to deliver high-quality solutions while continuously expanding my expertise in Back-End development and other technologies.

EDUCATION

Uniamérica - Systems Analysis and Development
11/2024 – Ongoing

DevMedia - Full Stack Programmer Career - University Extension Course with Mentorship
10/2014 – Ongoing

B7web - Full Stack Programmer – University Extension Course
08/2024 - Ongoing

LANGUAGES

- Portuguese: Native

- English: Advanced

- French - Upper- Intermediate

HARD SKILLS
React JS, Javascript, CSS, HTML, Git, Github, Next.js, Node.js, Typescript, TailwindCss

SOFT SKILLS

Teamwork, proactivity, strong communication skills, adaptability, time management, critical thinking, willpower, eagerness to learn, focus, determination.

PROFESSIONAL EXPERIENCE – PERSONAL PROJECTS

My Portfolio

The "GFranca's - Portfolio" website features a clean layout and interactive sections to showcase my skills and projects. The main challenges were ensuring a smooth navigation experience and implementing a responsive design. Solutions included using a grid system to organize content and media queries to ensure adaptability across different devices. Additionally, I integrated external links to GitHub, LinkedIn, and WhatsApp to enhance user interaction.

Tech's Used: React, HTML, CSS, NextJs.

Repo Link: https://github.com/guilhermesfranca/portfolio

Barber Franca Project
A web application developed for a barbershop, focused on customer service with theme options in "light" and "dark" modes. Developed with HTML, CSS, and JavaScript to implement theme switching functionality using useState.

Tech's Used: HTML, CSS, JavaScript.
Repo Link: https://github.com/guilhermesfranca/barberFranca

"Casinha do Café" Project
Casinha do Café is a website for a coffee shop inspired by French culture and the authentic flavor of Minas Gerais coffee. The goal of this website is to provide a visually pleasing experience, highlighting the qualities of the coffee and providing information about the location. The challenges included using Parallax and position: relative and position: absolute to align items throughout the page.

Tech's Used: HTML, CSS, JavaScript.
